Executive Overview & Business Value

The Rathore Electronics platform modernizes retail and repair service booking in Vidisha by combining a sub-second e-commerce storefront, seamless Google 1-Tap authentication, zero-commission UPI payments, and a centralized store management panel.

1-Sec

Google 1-Tap Login
Zero passwords, instant profile creation

₹200

UPI Advance Booking
Guarantees genuine orders, 0% gateway fee

8+

Product Categories
Drones, RC Toys, Wires, Lights, Appliances

Modern Storefront & Catalog Experience

Engineered with an Amazon/Blinkit-style desktop & mobile navigation system with instant product search, real-time stock indicators, and price discount calculations.

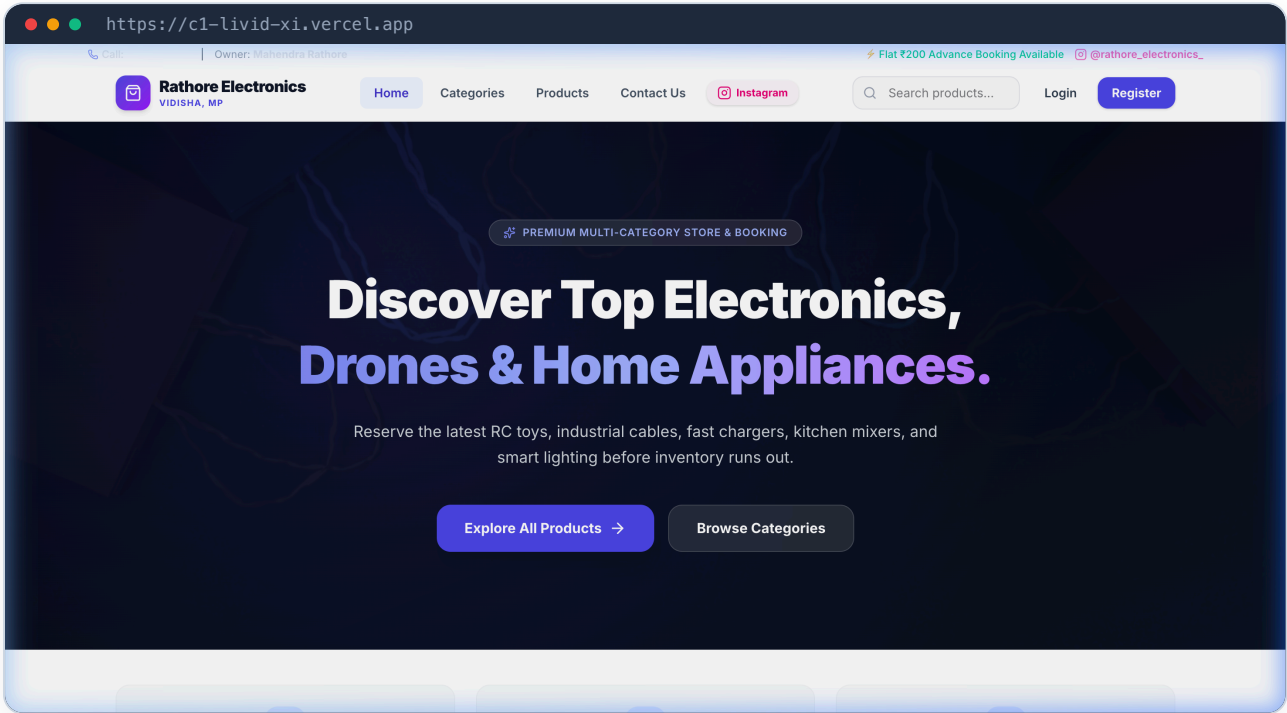

Fig 1.1: Live Production Storefront with Multi-Category Showcase & Sticky Announcement Bar

Amazon-Style Mobile Header

Mobile 1st

Horizontal scrollable category pill bar, direct click-to-call helpline, and fast search bar optimized for smartphones.

Dedicated Drone Repair Hub

Exclusive

Specialized section for commercial and hobbyist drone booking, calibration services, and camera accessories.

⚡ Frictionless 1–Tap Google Authentication

Manual registration forms with passwords cause up to 70% user drop-off. The platform implements native Google 1–Tap Single Sign-On (SSO) to log customers in in less than 1 second.

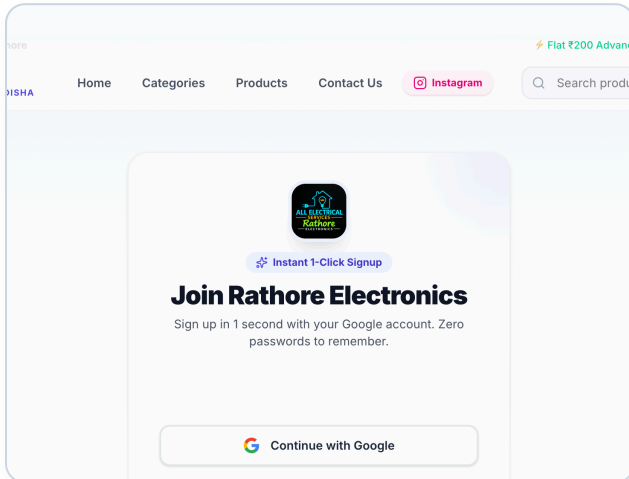

Fig 2.1: 1–Click Google Sign-up (0 Passwords)

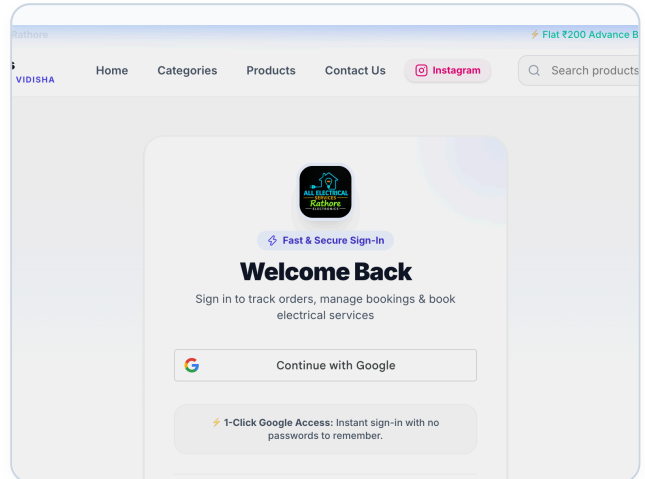

Fig 2.2: Staff & Admin Credentials Login with Demo Fillers

Natural Contact Number Capture: Customers are never blocked during signup. When they place an order, their 10–digit mobile number and delivery address are verified and automatically linked to their profile for future purchases.

📦 Smart Checkout & Delivery Profiling

Strict Indian Mobile Number Validation

Anti-Spam

Validates numbers starting with 6, 7, 8, 9 and rejects repeated dummy patterns (e.g. 9876543210, 9999999999) to ensure real customer reachability.

Zero-Commission ₹200 UPI Advance Gateway

Direct-to-bank UPI payment system eliminating middleman fees (saving 2–3% on every order) while preventing fake bookings.

STEP 1
Select Appliance /
Drone

STEP 2
Scan Dynamic QR
Code

STEP 3
Pay ₹200 via
GPay/PhonePe

STEP 4
Submit 12-Digit UTR

STEP 5
Admin 1-Click
Verification

NPCI Dynamic UPI QR Code

Instant Pay

Auto-generates customized QR code pre-filled with merchant VPA (**8435930113@axl**) and ₹200 amount. Compatible with GPay, PhonePe, Paytm, and BHIM.

12-Digit Bank UTR Verification

Fraud Proof

Customer submits their unique 12-digit transaction UTR number and optional payment screenshot proof. Live status tracker updates automatically.

Admin Management Portal (/admin)

Store owners can manage the entire business from any smartphone or laptop without touching code.

Module Name	Features & Operational Control	Business Advantage
Order & UTR Verification	Review customer payments, 1-click Approve / Reject, track ₹200 advance & remaining COD balance.	Zero manual reconciliation errors
WhatsApp Automation	1-Click button generates pre-formatted WhatsApp order confirmation message sent directly to customer.	Instant customer satisfaction
Product & Stock Control	Add/edit items, upload multi-images, adjust MRP discounts, toggle out-of-stock indicators.	Complete inventory clarity
No-Code Store Settings	Change business phone, UPI VPA, store address, Google Maps location, and Instagram handle instantly.	100% store flexibility

Live Sales & Booking Analytics

Real-Time

Visual revenue graphs, category sales breakdowns, pending verification counters, and automated low-stock warnings.

Security, Hosting & Infrastructure

Built on enterprise cloud infrastructure for 99.99% uptime, blazing fast load times, and bank-grade data security.

System Component	Technology Stack	Enterprise Standard
Frontend Engine	React 18, Vite 8, TailwindCSS	Sub-second initial paint & full PWA responsiveness
Backend REST API	Node.js, Express.js Engine	High-concurrency order handling & JWT token auth
Database Architecture	MongoDB Cloud Atlas	Encrypted data storage with automated daily backups
Media & Cloud CDN	Cloudinary Cloud Storage	Optimized webp image delivery & instant uploads
Global Deployment	Vercel Serverless Edge CDN	DDoS protected with 256-bit SSL / HTTPS encryption
